The materials may not be incorporated into any third party products, computers, or CADs. The User understands and agrees that this Protocol may not cover all situations that might possibly present themselves during the course of an ACTIVE ASSAILANT (SHOOTER) incident. In no event shall the IAED (and its affiliates) be liable for damages of any kind associated with the use of or reliance on these materials. There is no requirement to use this Protocol. The decision to implement the Protocol is at the sole discretion of the User agency. Rights not expressly granted to the User are reserved by the IAED.

International Academies of Emergency Dispatch HiRISC Policy

The International Academies of Emergency Dispatch considers any situation necessitating the provision of these instructions to be an extremely High Risk-Inherent Situation Case (HiRISC), and believes that the trained Emergency Dispatcher (certified EMD, EFD, EPD) or their agency, making a good-faith attempt to provide these instructions, should not be held responsible for any bad outcomes. This should not be considered a legal interpretation, but a strong official opinion of the Council of Standards and the Board of Trustees of the IAED.

➔ Determinant Suffixes

The suffix codes help to delineate the specific type of weapon:

- C** = Club
- E** = Explosive
- G** = Gun
- K** = Knife
- M** = Multiple weapon types
- O** = Other

ACTIVE ASSAILANT (SHOOTER)

An **armed** person who has used **any type of weapon** to inflict **deadly physical force** on others and **continues** to do so while having **unrestricted access** to additional victims.

LOCKDOWN

A response utilized by schools, businesses, or individuals that **secures people** in a facility or room to **minimize their exposure** to an **ACTIVE ASSAILANT (SHOOTER)**.

Rules

1. **ASSAULT** situations in which a suspect **does not have unrestricted access** to additional victims should be **handled on Protocol 106**.
2. **Evacuating**, if **safe** to do so, is the **best action** callers can take to **save lives**. However, if this is **not possible**, instructions for callers to go into a **LOCKDOWN** are **critical**.
3. **Hostage situations** developing in the course of an **ACTIVE ASSAILANT (SHOOTER)** scenario should be **handled on Protocol 136**.

Axioms

1. Individuals who are found by an **ACTIVE ASSAILANT (SHOOTER)** and **cannot get away** should be **mentally prepared to fight for their lives** by using weapons, throwing objects, acting aggressively, and yelling.
2. **Most victims** of the Columbine High School massacre were found **in the library** where students were **unable** to evacuate or go into a **LOCKDOWN**.
3. The term "**active shooter**" is a phrase coined by law enforcement to describe **armed assailants who use deadly force** on individuals while having **unrestricted access** to additional victims. These assailants **commonly use firearms**, hence the term "**active shooter**"; however, **any weapon could be used**.
4. A true **LOCKDOWN** **supersedes a fire alarm unless** the smoke or fire is an **immediate life threat**.

NTOA Statement

NTOA (National Tactical Officers Association) **cautions against** a change in police response **based solely on a time delay** of when shots were reportedly last heard. This time delay, by itself, **does not negate the need for an immediate response**. The perpetrator may be using, or preparing to use, other weapons (knives, IEDs, etc.), or her/his shots may not be audible. If the threat's location is not known, officers should begin searching or rescue wounded victims. Officers should transition to a hostage/barricade situation, if necessary, based only on the totality of circumstances.

1 Evacuation

Salga del edificio/la zona **incluso** si otras personas **deciden no seguirlo. Ayude** a otros a escapar, si es **posible**.
 Tome una ruta de evacuación **alejada del sospechoso**.
 Mientras escapa **advierta a otros** sobre la situación.
No intente **mover** a personas heridas.
No corra hacia los oficiales, mantenga sus **manos visibles** en todo momento y **obedezca** todas sus **órdenes**.
Actualice a la policía con **la descripción y la ubicación del sospechoso**.

- ¿Puede llevar el teléfono con usted?

Yes → Return to sequence

(No) Llámenos de nuevo desde un lugar **seguro**, si es posible. **End**

2 LOCKDOWN

No abandone su ubicación actual si piensa que el **sospechoso puede verlo o encontrarlo**. Si es **seguro** hacerlo, **reúna** a las personas que están a su alrededor y **diríjase** a la habitación **más cercana** que tenga **puerta con cierre de seguridad**.
 Una vez que esté **adentro**, **cierre con seguro** y **bloquee** la puerta con objetos pesados.
Evite ser visto. Si puede, **apague** las **luces** y **cierre** las cortinas o persianas para **ocultar** cualquier **ventana**.
Siéntese o **acuéstese** en el suelo **cerca de** la pared con la puerta y **evite hacer cualquier ruido**.
 Ponga el **timbre** y la **vibración** de su teléfono en **silencio**.
No le responda ni le **abra** la puerta a **nadie**.
 Si lo **encuentran** y **no puede** escaparse, sea **agresivo** y esté listo para **luchar por su vida** utilizando cualquier cosa como **arma**. Lance objetos, grite y continúe **defendiéndose**. **Return to sequence**

Academy Policy

These instructions were developed with the assistance of the National Tactical Officers Association (NTOA).

The International Academy of EPD considers situations necessitating the provision of these instructions to be an extremely **High Risk-Inherent Situation Case (HiRISC)** and believes that the trained EPD (or their agency), making a good-faith attempt to provide these instructions, should not be held responsible for any bad outcomes. This should not be considered a legal interpretation, but a strong official opinion of the Council of Standards and Board of Trustees of the IAEPD.

Rules

1. **ASSAULT** situations in which a suspect **does not have unrestricted access** to additional victims are **not ACTIVE ASSAILANT (SHOOTER)** incidents.
2. **ACTIVE ASSAILANT (SHOOTER)** situations **change rapidly**, so the EPD must consider and provide the **most appropriate advice** items in this protocol to **assist** the caller.
3. At some point, phone **contact** with the caller may be **lost**. **Pre-Arrival Instructions** need to be **given early** to **prepare the caller** as much as possible to **escape** or **defend** themselves.
